👤 SUMMARY

Information Technology student with strong programming skills and interest in data analytics. Passionate about building software solutions. Seeking entry-level Software Engineer role with development exposure.

🎓 EDUCATION

SSC

Jai Saradha Matric.hr.sec.school
2020 – 2021

HSLC

Jai saradha matrhc .hr.sec.school
2022 – 2023

B.Tech Information technology

SNS college of engineering
2023 – 2027

🧠 TECHNICAL SKILLS

Languages

Python , Java

Web Technologies

MySQL , HTML , CSS , JavaScript

Tools

PowerBI , Figma

📜 CERTIFICATION

- MICROSOFT-Azure AI fundamentals(AI-900),Azure data science fundamentals (DP-900)
- Prepinsta – python,Java,sql

★ INTERNSHIP

WEBGEN TECHNOLOGIES

Full stack web development

- Gained an hands on knowledge in full stack web development and experienced in frontend development-leave management system

ZENTRIX TECHNOLOGIES

Gen AI

- Learned and gained knowledge about gen Ai with java and gained experience in project - traffic congestion control with AI technology

📁 PROJECT

GOV-CONNECT

- GovConnect is a web application that enables citizens to access government services and submit requests efficiently.
- It ensures transparency and seamless communication between the government and the public.
- Built GovConnect using HTML, CSS, JavaScript for frontend, PHP for backend, MySQL for database, and XAMPP as local server.

FARM RIDE

- FarmRide is a web application that connects farmers with transportation services for their produce efficiently.
- It simplifies logistics, ensuring timely delivery and smooth communication, between farmers and transport providers.
- Built FarmRide using HTML, CSS, JavaScript for frontend, Node.js for backend, Express.js for server, and MongoDB for database.

🧩 LANGUAGES

- Tamil
- English
